

Dear Musto Skiff friends,

This is the third newsletter for the **ACO 10th MUSTO Skiff World Championship 2019** to be held in Medemblik in July. At the moment we have 98 sailors on the entry list. Are you going to make it 100?

Split the fleet?

As you have seen we asked your opinion about splitting the fleet on Facebook. After that we've contacted John Borsboom, our race-officer in Medemblik. His opinion is the same as ours, no need to split the fleet as long as we all sail fair and behave on the start line. But with almost no protest on the last world championships, we think this won't be a problem.

Campervan or Camping in the Harbour area

We've spoken with Marcel Hanenberg who's in charge of the Regatta Center and the harbour. I asked him how it goes with campervans or camping. He told me he has 40 camper spots with power. But what I didn't know, you can also put your tent up at the harbour. No need to book a spot for a camper or a tent, just come to Medemblik and find your spot. He said; "We have had a lot of big sailing events for Olympic classes and World championships for different classes over the years and we've never had a problem with space."

Last thing we want to point out that the date for the **Early bird entry fee** is coming very soon. To get the early bird entry fee, make sure your payment reaches us **before the 5th of April 2019!** After this date the entry fee increases by 30 euros.
